

South Bruny National Park

Bird checklist

Parks and Wildlife Service Tasmania

DEPARTMENT of TOURISM, PARKS
HERITAGE and the ARTS

The following checklist highlights some of the many birds that can be found on Bruny Island. The checklist is designed to be used in conjunction with a field guide.

It is interesting to note that all 12 species endemic to Tasmania are found on Bruny Island. An endemic bird is one found only in a specific location—in this case Tasmania.

T = Tasmanian endemic
M = Migratory
U = Uncommon

Seabirds

Little penguin	
Shy albatross	U
Short-tailed shearwater	M
Common diving petrel	U
Australasian gannet	
Arctic jaeger	MU
Caspian tern	
White-fronted tern	U
Fairy tern	U
Crested tern	
Silver gull	
Pacific gull	
Kelp gull	

Shore, estuary and lagoon birds

Pied oystercatcher	
Sooty oystercatcher	
Hooded plover	
Black-fronted plover	U
Double-banded plover	MU
Red-capped plover	U
Tasmanian native-hen	T
Australasian grebe	
Hoary-headed grebe	
Great cormorant	
Little-pied cormorant	
Black-faced shag
